About the San Francisco Survey

The San Francisco Survey is a project of the Committee on Jobs, conducted by EMC Research. Our goals are to develop an ongoing tool to gauge public opinion and to help inform elected officials and interested parties of the public's views on policy issues. The San Francisco Survey uses an open and transparent platform and will release the results of each of the surveys it conducts.

In addition to providing survey results, the San Francisco Survey will release demographic and voter data on a regular basis to help inform policy discussions in San Francisco.

Methodology

- Web Survey of San Francisco Voters offered in English, Chinese, and Spanish
- Demographics closely match the demographics of the registered voters in the city

Please note that due to rounding, percentages may not add up to exactly 100%

*Surveys only offered in English and Chinese.

** An additional 246 interviews were conducted in District 5.

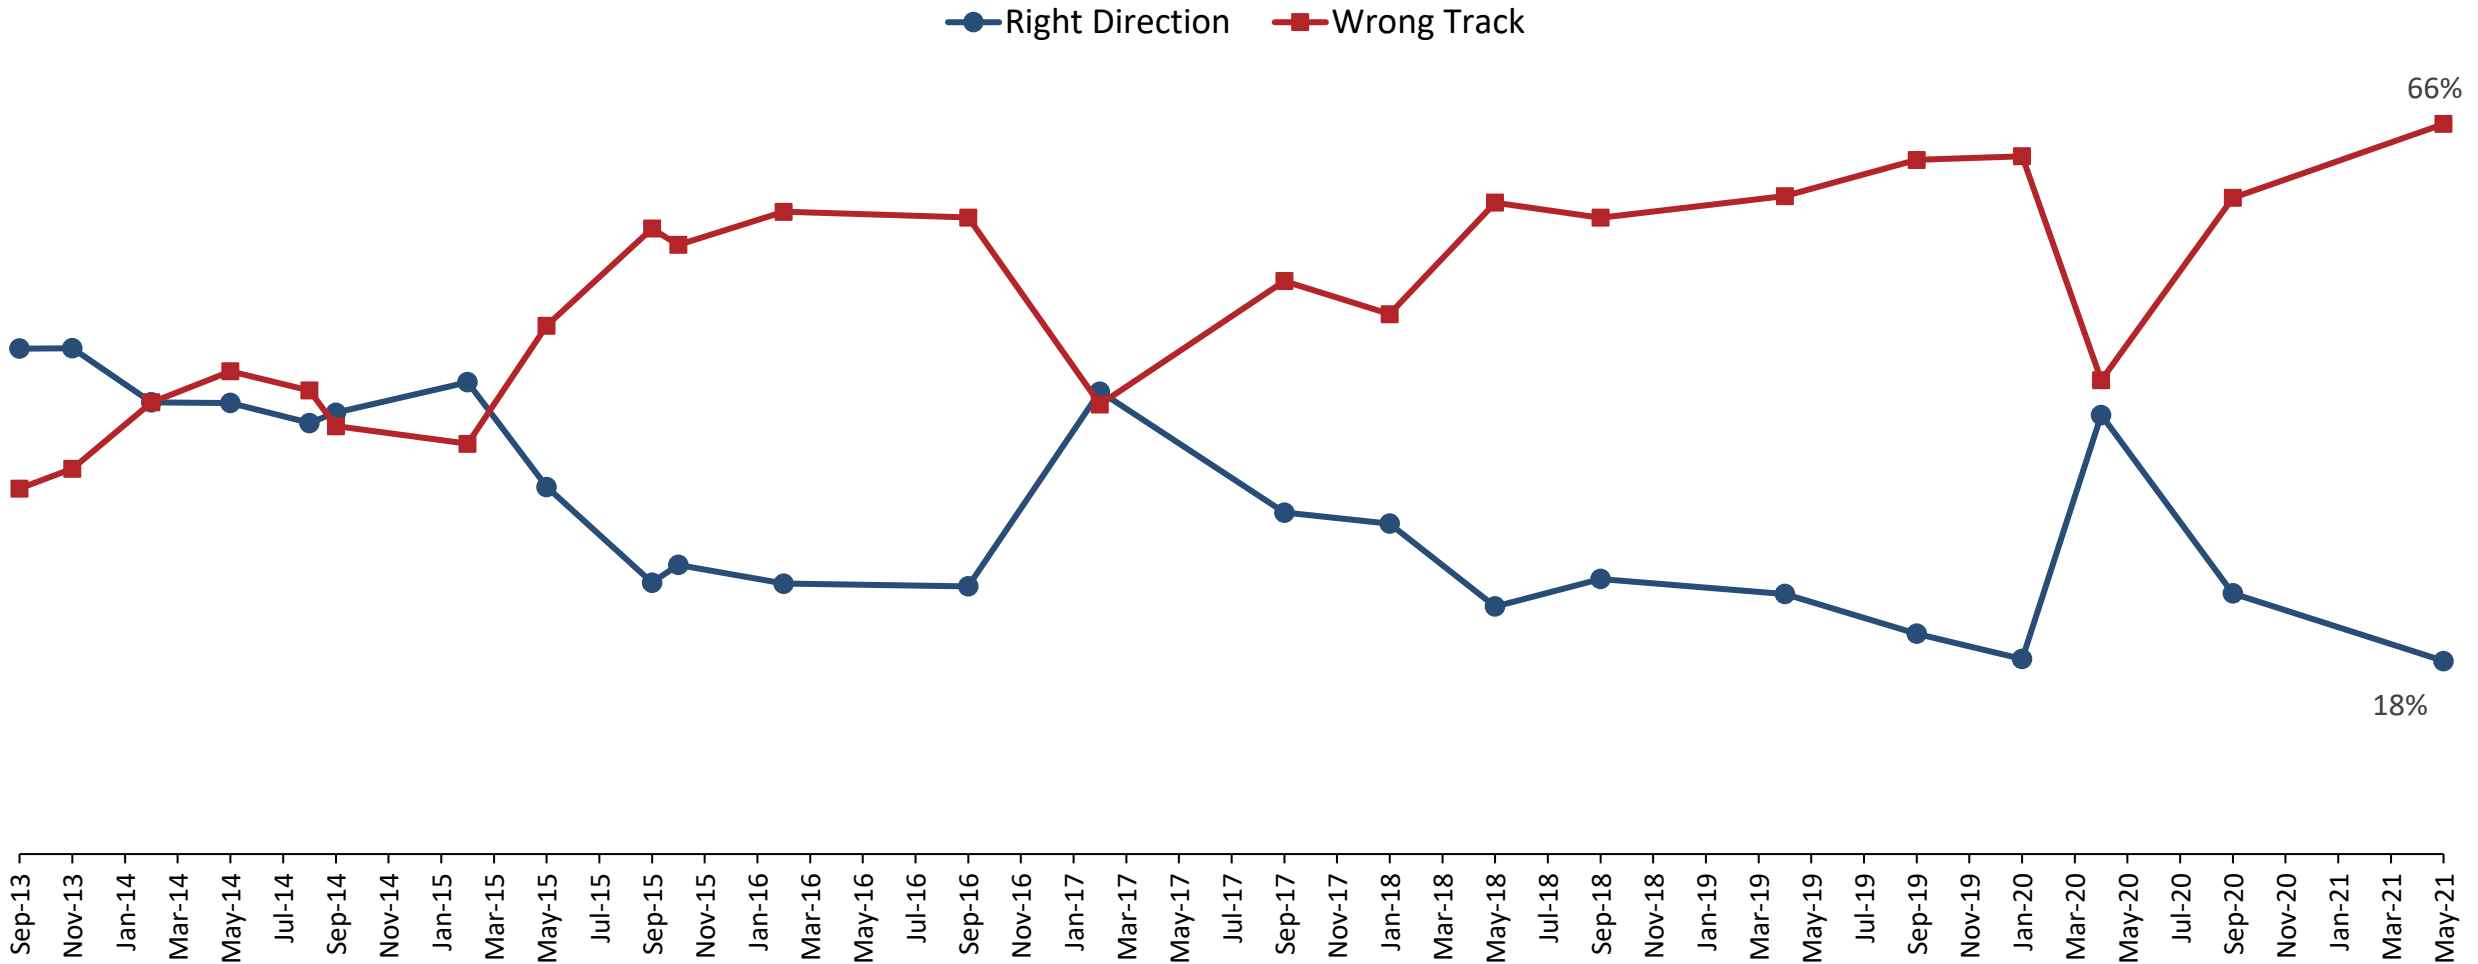

*** An additional 252 interviews were conducted in District 1, 256 interviews in District 5, and 252 interviews in District 7.
